

DELANEY RESEARCH GROUP
SUPPORTING RESEARCH. ADVANCING CARE.

FEDERAL CAPABILITIES
STATEMENT

RESEARCH ENTERPRISE DEVELOPMENT · CLINICAL OPERATIONS · CAPACITY BUILDING

Building, strengthening, and sustaining high-performing research programs.

Regulatory infrastructure and operational frameworks engineered for healthcare and government entities.

— 01 — ABOUT US

Maryland-based, certified Woman-Owned Small Business turning complex research ideas into scalable outcomes.

Delaney Research Consulting Group, L.L.C. (DRCG) provides strategic consulting in research enterprise development, clinical operations, organizational infrastructure, and regulatory compliance. Established in 2024, DRCG partners with healthcare systems, academic institutions, government agencies, and nonprofits to turn complex ideas into scalable, sustainable research initiatives. Combining executive leadership with deep technical expertise, the firm delivers tailored solutions across the entire research lifecycle to drive operational excellence and measurable, mission-driven outcomes.

— 03 — CORE CAPABILITIES

- **Research Enterprise Development**
Designing, building, and expanding scalable research infrastructure, organizational governance, and long-term operational frameworks.
- **Clinical Trial Start-Up & Operations Management**
Overseeing study activation, site feasibility assessments, clinical trial monitoring, workflow design, and multi-site coordination.
- **Regulatory Readiness & Quality Oversight**
Developing SOPs, managing regulatory documentation, IRB alignment, and ensuring study compliance.

— 02 — DIFFERENTIATORS

- **30+ Years Executive Leadership**
Decades leading clinical research operations, regulatory compliance, and program administration across federal agencies and academic medical centers.
- **End-to-End Lifecycle Execution**
Seamless continuity from strategic planning and infrastructure setup to study activation, quality oversight, and process optimization.
- **Integrated Service Portfolio**
Clinical research operations, regulatory consulting, workforce training, and grant development under a single trusted partnership.
- **Multidisciplinary Strategic Advisory**
Tailored operational solutions for complex collaborations between healthcare systems, government bodies, and research institutions.

- **Program & Capacity Building**
Structuring mission-driven initiatives, participant recruitment and retention strategies, and performance improvement systems.
- **Workforce Training & Professional Development**
Specialized clinical trial training, research staff onboarding, workshops, and management development.
- **Grant Development & Technical Writing**
Comprehensive grant and proposal writing, program evaluation, contract administration support, and technical documentation.
